# Mission

# POMERANIAN

We recognize that Pomeranian who share our world serve as a barometer for Pomeranian health, and so we set our sights on how to tackle the larger issues at hand. None of us, Poms included, have a chance at long term survival if drastic measures are not taken to reverse the effects of 'Stupid Pomeranian'.

This is why we have devoted ourselves to giving individuals the power to protect and preserve Poms. We at Pomeranian Token will not rest until we have created a platform which can be used as a robust and dynamic tool in the fight to protect Pomeranians for generations to come.

# Tokenomics

P O M E R A N I A N
